Brief Industrial Profile of East District

1. General Characteristics of the District

East District is the third largest in area but most populous district in Sikkim. It was part of the erstwhile kingdom of Sikkim. Gangtok is the district headquarter as well as the present capital of the state. It is the fourth capital of Sikkim. In the year 1894 king Thutob Namgyal shifted the capital from Tumlong in North district to Gangtok. The Nathula Pass located in the district formed the offshoot of the famous ancient Silk Route which connected Lhasa to India and at present also border trade is conducted between traders from Sikkim and Tibetan Autonomous Region of China through this pass. Special permit is required to visit certain tourist places like Tsomgo(Changu) Lake, Baba Mandir and Nathula Pass located in the border areas of the district. World famous Rumtek monastery and about 300 years old Enchey monastery is also located in the district.

According to 2011 Census east district has total population of 281293 persons with a density of 295 persons per square kilometer. Its decadal (2001-2011) population growth is 14.79% with a sex ratio of 872 females per 1000 males and a literacy rate of 84.67%. Nepali, Bhutia and Lepcha are the main ethnic community of the district and it also has sizeable number of people from other states of India.

1.1 Location & Geographical Area.

East District is located at latitude 27 19 'N and longitude 88 36' E and occupies an area of 954 sq.km. Gangtok lies at an altitude of 1800 m. This district occupies the south-east corner of the state. It is bounded by North District in the north, China and Bhutan in the East, Darjeeling district of the state of West Bengal in the South and South District in the western side.

1.2 Topography

East district of Sikkim is totally hilly region and the areas bordering China is usually covered with snow. Almost three fourth area of the district is forest area. The topography of the district is totally mountainous, hilly terrain.

1.3 Availability of Minerals

Mostly Quartzite Base metals (copper, lead & Zinc) are available. Rangpo areas has been explored by Sikkim Mining Corporation and presently closed and base metals of Dikchu areas are yet to be explored.
